

Attestation

Food Contact Material

On September 16, 2016, Eurofins Product Testing A/S has tested:

Tork Handtowel Roll for elec. Dispenser, 2-ply.

Sample: HTR SCA Cuijk Production date 7-6-'16

supplied by

SCA HYGIENE PRODUCTS CUIJK B.V.

The sample was tested according to the specification stated in:

Test report 392-2016-00342001.

In the scope of the analyses performed there is no indication for an objection.

All results are below the limit values stated in the German Recommendation XXXVI on "Paper and board for food contact" from Bundesinstitut für Risikobewertung (BfR) and hence the results are in compliance with BfR XXXVI on Paper and board for food contact.

Based on the test results the product can be used for:

- **all type of foodstuff**
- **contact temperature of max 90 °C**
