

## Tork Reflex™ Mehrzweck Papierwischtücher (Weiß)

Artikel	473246
Rollenlänge	120.1 m
System	M3 - Innenabrollung Reflex Mini System
Rollenbreite	19.8 cm
Rollendurchmesser	13 cm
Blattanzahl	343
Blattlänge	35 cm
Hülsendurchmesser	5.9 cm
Lagen	1
Bedruckt	Nein
Geprägt	Ja
Farbe	Weiß

Vielseitig einsetzbare Papiertücher für leichte Wischarbeiten.

[www.tork.de](http://www.tork.de)

- Mehrzweck Tücher – für unterschiedlichste Wischarbeiten geeignet
- Ideal für die Glasreinigung
- Geeignet zum Abwischen der Hände
- Zertifiziert für den Kontakt mit Lebensmitteln

Recycled fibres

Chemicals

Material

Recovered paper can be produced both from collected newsprint, magazines and office waste. The paper is washed with water and treated with chemicals under high temperature and then filtered. Different fibres demand different processes and this determines the end product properties, and makes the fibre type (recovered or virgin) less important.

The environmental benefits and economic feasibility of recovered paper as a raw material source depend on its availability, transport distance and the quality of the collected material.

Bleaching of fibres

Bleaching is a cleaning process of the fibres and the aim is to achieve a bright pulp, but also to get a certain purity of the fibre in order to achieve the demands for hygiene products and in some cases to meet the requirements for food safety. There are different methods used today for bleaching ECF (elementary chlorine free) where chlorine dioxide is used, and TCF (totally chlorine free) where ozone, oxygen and hydrogen peroxide is used.

Chemicals

The chemicals used in the process as well as the functional chemicals are assessed from an environmental, occupational health and safety and product safety point of view .

The used functional chemicals are:

Wetstrength agent

Dye = if coloured

The process chemicals are:

Antipitch

Protection agent

Yankee coating

Defoamer

Dispersing agents and surfactants

pH and charge control

Retention aids

Drainage aid

Packaging

Fulfilment of Packaging and Packaging Waste Directive (94/62/EC): Yes

Food contact

This product fulfils the legislative requirements for Food Contact materials, confirmed by external certification performed by a third party. The product is safe for wiping food contact surfaces and may also come occasionally into contact with foodstuffs for a short period of time.

Environmental label = EU Ecolabel

This product is approved for the EU Ecolabel.

Date of issue: 2014-12-05

Revision date: 2014-12-08

**Production**

Material produced and converted at Cuijk mill, Netherlands, certified according to ISO 9001:2008, ISO 14001, OHSAS 18001 and BRC-IoP

**Destruction**

CENTREFEED is used both for personal hygiene and for industrial processes. When used in industrial processes the product might through use be contaminated with different substances. This will determine how the used product will be handled / disposed of /destroyed. The product itself is suitable for incineration. If used in industrial processes contact local authorities before destruction.
